Gauntlet

[Watch Product Video -](#)

MEET THE MACHINE THE ENTIRE GYM LOOKS UP TO.

Beginning with the first stepping machine in 1983, StairMaster® has been a legendary name in the gym. Today the tradition continues with the Gauntlet®. Building on 30 years of experience and proven performance, the Gauntlet provides a superior combination of cardio and strength training in our most comfortable design ever. The machine features a deeper, wider step surface with durable, rust-free polypropylene construction and is now available with all three smart, affordable, flexible, OpenHub™ console options. Combining quality with innovation delivers a workout that's head and shoulders above anything else in the gym.

Console Options

When we set out to design our new console, our philosophy was simple: provide a flexible platform that connects expert partners to provide solutions for every customer for today and into the future. Introducing the new OpenHub family of Cardio Consoles. OpenHub™ is a smart, affordable, configurable solution available on Star Trac and StairMaster cardio equipment. The best part is, you add (and pay for) only what you want, when you want. The future of club connectivity is here. The future is OpenHub.
