

# Upgraded Software System and Website: UPDATE

As many of you know, we are upgrading the MTVAC website and our back office software to better serve you. **We will roll out the new MindBody platform in the near future.**

We will be scheduling additional meetings to inform every one of the changes and to answer your questions. Once the staff is trained and all the member information is entered into the new system we will begin the roll-out club wide.

**For tennis members, we will continue to use Xpiron until we feel the staff is fully trained and we have given ample time for members to create their own accounts and also have the time to become familiar with system.**

Our plan is to make sure it is done efficiently and to continue to keep you informed. Please note that we will be updating all the accounts to ensure there is a picture on file. For security purposes, all members **MUST** have a photo attached to their account. We appreciate your cooperation.

**Thank You!**

**—MTVAC Management**
